DIES BILL IS BLOCKED IN FIRST FIGHT

Pressure of Workers Acknowledged in Senate

DANGER IS STILL GREAT

Protests Must Grow to Defeat Bill

WASHINGTON, July 5.—The pressure of mass indignation against the Dies bill is already being felt in the U. S. Senate, which continues to be flooded with protests from workers' organizations and individuals from every part of the country.

The Dies bill has already been announced on the calendar, but consideration was temporarily blocked by a motion by Sen. La Follette of Wisconsin, over the objection of Sen. Tamm, who brought up the bill.

Result of Pressure.
It is doubtful whether La Follette, who supports the administration on all basic questions, will make a serious fight against the bill when it comes up for debate. On the other hand, the tremendous protest against the bill from this state where more than 50 meetings of workers have denounced the bill, has undoubtedly served as a warning to La Follette.

Official acknowledgement of the tremendous protest against the deportation measure was made by vice.

FOUR SLAIN, MANY HURT IN GERMANY

Police Aid Fascists in Clashes With Workers

(Cable by Inprecor)

BERLIN, July 5.—Four more were killed and many wounded yesterday. Armed police intervened in a collision on behalf of the fascist yesterday evening at Berlin, killing one Communist.

In a shooting affray at Frankfurt Main one fascist was killed and others wounded. The press thinks that fascist shooting wildly killed their own men.

At Koeslin yesterday armed fascists ambushed workers killing one and wounding others.

Yesterday evening armed fascists attacked the Communist local in Minden firing through the windows, killing one and wounding others.

Further bloody collisions occurred at Leipzig and other towns. A worker, Frhm, was shot in the stomach during the ambush at Krenpel Schleiering and died at the hospital yesterday. The local anti-fascist committee appeals for protest strikes on day of funeral.

The Deutscher Zeitung announces that the Von Papen Government opposes the new wave of violence is not due to re-permission of fascist uniform storm detachments but is the result of organized attacks by terrorist groups, the conclusion being that energetic measures are necessary against the "Communist terror".
Potsdamer Nachrichten show that the majority of these killed were workers slain by fascists.

The Supreme Court now decided that the Reich Minister of Interior's demand for the suppression of the Catholic Cologne Volkshilf is also justified. Severing must now suppress this paper for three days instead of five as demanded by Von Gayl.

Fireman Sets Hotel Afire in Paris, Mo., to Drum Up Business

(By a Worker Correspondent)

HAMMOND, Ind.—The capitalist system is well on the way to utter destruction when members of the fire department have to drum up hotel business by starting fires!

The local press tells of a case in Paris, Mo., of a fire department member who was getting so hard up and needed the pay so badly of \$2 for every fire, that he set fire to a hotel by placing oil soaked rags around. Unfortunately he was caught and landed in jail and lost his job on the fire department, also his \$2 pay.

Oakland, Cal., Boy Dies; Hunger Drove Him to Eat Garbage

OAKLAND, Cal., July 5.—In this widely advertised land of "perpetual sunshine," a 14-year-old boy, a son of an unemployed worker, died here today as a result of poisoning from eating garbage.

The dead boy's 13-year-old sister, similarly stricken, is not expected to live.

The father, Fidel Sandoval, a jobless laborer, told reporters that the mother "said" he had received from the Oakland charities was responsible for his children seeking food on the garbage dumps of the city.

PHILA. WORKERS PLAN PROTEST MEET FRIDAY

Fight Scottsboro and Willie Brown Lynch Verdicts

PHILADELPHIA, July 5.—Lucille Wright, 11-year-old sister of 2 of the Scottsboro boys will speak in Philadelphia Friday night, July 8 at 806 Girard Ave.

Lucille Wright is touring the country to rally the young workers and workers' children in the fight to save her brothers and the rest of the Scottsboro boys from legal lynching.

This protest meeting must also organize the fight against the frame-up of Willie Brown.

Protest in Poland

Revolutionary Polish workers at Bialystok, Poland, adopted a resolution of protest against the Scottsboro lynch verdict and the imperialist war preparations. A resolution was unanimously adopted demanding the release of the nine Scottsboro boys, of Tom Mooney and Edith Berkman. The resolution calls upon the workers of the whole world to stop the legal lynching of the Scottsboro lads, prevent deportations and stop the production and shipments of munitions against the Chinese people and the Soviet Union.

A copy of the resolution was sent to the United States Embassy in Poland.

Conference Prepares Ohio Meet
OUNGSTOWN, Ohio, July 5.—Youngstown workers are preparing a giant reception and demonstration for Mother Mooney and Richard B. Moore who are touring the country for the Mooney-Scottsboro defense campaign. The Central Auditorium on W. Boardman Street, has been secured for a huge demonstration. Delegates of thirty organizations have met in a conference to build this meeting, which is sponsored by the International Labor Defense.

Sioux Meeting Success
SIOUX CITY, July 5.—The Mooney-Scottsboro demonstration in this city at the time of the visit of Richard B. Moore and Mother Mooney was a tremendous success. Many workers attended. Seventy six applications were received for membership in the International Labor Defense.

BULLETIN

DENVER, July 5.—One thousand workers last night packed the Broadway Theatre here to listen to William Z. Foster, Communist candidate for President.

A delegation of best workers came to the meeting, some of them from distances as far as 200 miles. In addition to a delegation of steel workers from Pueblo. Scores of Negro workers were present, the greatest number in many years. William Dietrich, candidate for U. S. Senator, was chairman. Pat H. Toohy, Communist district organizer, spoke on local state issues.

OKLAHOMA CITY, Okla., July 5.—William Z. Foster, candidate for president on the Communist Party ticket, will speak in this city at the "Merrill Garden," 626 W. Main St., July 11 at 7:30.

Foster comes here after rousing meetings of workers and farmers throughout the west where he exposed the three parties of capitalism—Republican, Democratic and Proletarian—and put forward the fighting platform of the Communist Party.

The hall in which Foster is to speak seats 2,000 and workers and farmers from all parts of the state are expected to stream into Oklahoma City.

HONOR R. WALKER AT MEET TONIGHT

Memorial for Artist Who Died in USSR

NEW YORK.—District Two, Communist Party, yesterday called upon all workers to attend the memorial meeting for Ryan Walker, tonight at Manhattan Lyceum, 66 E. 4th St.

Sfor Ryan Walker, revolutionary artist, who died recently in the Soviet Union.

The memorial is being arranged jointly by the Daily Worker of which he was staff artist and the John Reed Club of which he was a member.

Besides an elaborate program arranged by the John Reed Club, speakers will include Alexander Trachtenberg, associated with Walker for many years; Jacob Burck, staff artist of the Daily Worker who will tell of his day-to-day work with Walker; and Harry Raymond, who will speak on behalf of the Daily Worker editorial staff.

In addition a number of revolutionary artists of the John Reed Club will discuss his work. The regular meeting of the writers' group scheduled for tonight is called off, an all members will attend the memorial.

Mexican Reformists Fail In Attempt to Betray Rail Strike

The strike of rail workers on the American-controlled Southern Pacific lines in Mexico against wage-cuts continued effective yesterday, with a number of Mexican west coast cities completely without train service.

The company, backed by the Mexican Chambers of Commerce, are demanding that the government take sharper action against the workers. The Mexican Minister of Communications continues his vicious attacks on the strikers, demanding that the workers accept further sacrifices in order "to save capitalism." In spite of several attempts by union leaders to betray the strike, the men are standing firm.

I.L.D. WINS NEW TRIAL ON ORPHAN JONES FRAME-UP

Mass Pressure Policy Shown Effective

NEW YORK.—The Maryland Court of Appeals in a decision just rendered has reversed the sentence of death passed upon Euel Lee ("Orphan Jones"), and has ordered a new trial, lawyers fighting the case for the International Labor Defense reported by wire to the national office today.

Partial victory.
This is a tremendous victory for the I. L. D. and a vindication of its policy of mobilizing mass protest to smash frame-ups against workers. In the same way it has succeeded in forcing a stay of execution for the Scottsboro boys, whose appeal is to be heard next October.

Lee was sentenced by Judge T. Orff on January 28 following his conviction on a fantastic frame-up that the defendant murdered a farmer and his family. The I. L. D. announced that it will continue a sharp fight on behalf of Lee and demand the release of Negro workers and the exclusion of white chauvinists from the jury at the next trial.

Wanted to Erase Case.
Judge Frank I. Duncan, who was one of the judges in the case, acknowledged that for 26 years during which he had been a judge he had never permitted a Negro on a jury. The Maryland Court of Appeals granted this retrial after they adjourned last week. Of 64 appeals which they heard, they passed on 53 of them before adjourning. As shown by their statements to the I. L. D. attorney, Taub, they did not want to pass on this case. Deputy attorney general Willis R. Jones, had said to Taub that "we don't want to have another Sacco-Vanzetti case, we want to have this thing over with in May, and have no further time taken up with it." But apparently the demands of the workers were too widespread and insistent to be so easily disregarded.

N.A.A.C.P. Aids Lynchers.
Significant in the face of this decision is the declaration by a representative of the National Association for the Advancement of Colored People before the trial that Lee was "probably guilty."

RELIEF STATION IN CHL STORMED

Steel Workers Shout "We Want Bread"

CHICAGO, Ill., July 5.—Hundreds of starving steel workers and their families stormed a relief station at Kensington today. While they stood in front of the station and shouted "we want bread and meat" calls for police and detectives were sent out. The hungry workers broke through the police lines and hurled bricks at the windows. Five more squads of police and a large group of motorcycle reinforcements came up. After a vicious battle the men with their women and children were forced to retreat.

The supply of food had been cut off completely and the woman in charge said that because there were no funds they would get no more aid.

BONUS ARMY CHILD DIES OF HUNGER

Pace, Vet Leader, Lays Blame on Bankers and Government

CALLS MASSES TO ACT

Demand for Special Congress Session

WASHINGTON, D. C., July 5.—Starvation, which is gnawing at the vitals of the 20,000 unemployed World War veterans who have come here to demand that the U. S. government pay their back wages, caused the death of one of the youngest members of the Bonus Expeditionary Forces, it was disclosed today.

Johnny Green, 4, who came here with his parents and seven brothers and sisters died Sunday night in the Gallinger Hospital from exposure and malnutrition.

The nurse who was called to attend the little boy after it was too late declared:

"The poor little boy was nearly starved when he was brought here."

George Pace, commander of the 14th Regiment of the B. E. F. and leader of the Workers Ex-Servicemen's League, in a statement issued today, denounced the government's attempts to starve the veterans out and laid the responsibility of the

10,000 VETS GO TO THE CAPITOL

Pace Denied Right to Speak by Police

WASHINGTON, D. C., July 5.—Guarded by squadrons of police, many of whom were hidden in the Capitol cellars, 10,000 veterans of the World War stormed the Capitol steps and the plaza across the street to protest against hunger and demand that Congress does not adjourn until the bonus bill is passed.

Military police, carrying clubs milled through the crowd on the alert to crush with violence any militant outburst of the hungry men.

Pace Refused Floor
George Pace, Commander of the 14th Regiment and leader of the Workers Ex-Servicemen's League, was denied the right to speak to the veterans. Pace had brought with him a program to present to the veterans for their approval. He demanded that a committee of vetting experts, two from each state, present at once demands for food and that Congress shall not adjourn until the bonus was paid.

Harold Foulkrod, an ex-Bonus detective and Thomas, ex-commander of Anacostia, were the only ones permitted to speak. They presented no demands to Congress. Foulkrod's speech called for the deportation of all foreign-born workers.

Donk Marsh, an ex-army captain, the man who is behind the military police, acted as the master of ceremonies throughout the morning. Several attempts, on the part of the veterans, to make the men sing patriotic songs were utterly futile.

Over 1,000 veterans attended a mass meeting held last night on Pennsylvania Ave. under the auspices of the Workers Ex-Servicemen's League.

Sentence 3 Terre Haute Workers for Fighting Eviction

TERRE HAUTE, Ind., July 5.—Judge Jeffries, the house' lool in this town, has sentenced three workers arrested in a demonstration against evictions to the penal farm. They are George Hill and R. Hardin, fined \$10 and sentenced to 60 days on penal farm. Ernest Price, fined \$5 and sentenced to 30 days on the penal farm. During the trial about 1,000 workers demonstrated in front of the court room, demanding the release of the arrested workers.

One of the policemen attacked a woman at the demonstration and because G. Dillo protected the woman from the police, he was sentenced to 90 days on the penal farm for contempt of court.

On the day of the announcement of sentence, the court room was a military camp. Police and special guards were armed to the teeth. In spite of this, Comrade Roberts and Leach spoke to the assembled workers.

S. P. Proposal for Relief Is to Fire 2 Million Youths

Pa. "Socialist" Convention Condemns All Under 18 to Starvation

Young Communist Election Tour Raises August 1st Anti-War Issue

The Pennsylvania State Socialist Convention adopted as one of its major planks, a proposal to hurl 2,145,559 young workers out of industry and into the ranks of the unemployed without provision for state maintenance or care.

This plank, accepted by the Socialist Convention, reads: "No employment of children (read young workers)—Editor: under 18 years of age." This is exactly the proposal of every Wall St. politician from President Hoover down. It is an attempt to "solve" the unemployment problem by displacing the young workers and condemning them to the pangs of hunger and starvation.

Hoover's Proposal.
This is in line with the youth starvation proposal of President Hoover's Emergency Committee for Unemployment in September, 1931 which instead of improving the young workers' conditions on the job, maintaining them while unemployed or giving them full wages while they attend schools at which they receive vocational and general training, throws them into the ranks of the unemployed. They are told to remain in the present capitalist schools and starve quietly.

S. F. With Reactionaries.
Cooperating in Hoover's "Back-to-School" movement were such reactionary outfits as the United States Children's Bureau, the leadership of the American Federation of Labor, the United States Department of Labor, and the National Education Association.

Even these outright capitalist organizations did not try openly to displace the young workers in the 16 and 17 year categories. POLICE SLUG SHEPARD, STATE CANDIDATE; FORD, WEINSTONE SPEAK JULY 9

Appear at Communist Election Rally, Coney Island Stadium; Varied Program

S. P. Dodges Amter Challenge; Ford Speaks In Brownsville Tonight

NEW YORK.—Henry Shepard, Negro worker and Communist candidate for lieutenant-governor of New York, was attacked for the second time Monday evening by Tammany cops, in the campaign of terrorism against the workers and their candidates.

Shepard was distributing leaflets, announcing the Red Ratification Rally in Coney Island Stadium, July 9, on the corner of 130th Street and Lenox Avenue, with three other campaign workers, when three uniformed thugs charged on them swinging clubs. The workers who had been taking the leaflets were first driven into a building by the cops, who then turned their attention on the distributors, and beat them with their clubs.

The leader of the cops was recognized by Shepard as the same one who arrested him June 22, during a protest demonstration before the Emergency Relief Bureau Office, 271 W. 127th Street. On that occasion, Shepard was sentenced to five days in jail.

Waldman Evades Challenge
Late Tuesday afternoon, no word had been heard from the Socialist Party or from Lewis Waldman, their nominee for governor of New York, in answer to the challenge issued Saturday by Israel Amter, Communist candidate for the same office, to debate with him in Utica tonight on the campaign issues and the election platforms of both parties.

Arrangements were proceeding for Amter's scheduled campaign meeting in Utica Tuesday night. Wednesday, he will speak in Syracuse, Thursday in Binghamton, Friday in Endicott, and Saturday in Ithaca.

Ford, Weinstone at Big Rally
James W. Ford, Negro worker and candidate for vice-president, and W. W. Weinstone, candidate for U. S. Senator, will be the principal speakers at the Red Election Rally at the Coney Island Stadium on July 9, the United Front Election Campaign Committee announced yesterday.

The program will include singing by a mass chorus, including the Pre-hait Masses Veret and the choruses of other mass organizations.

Music will be supplied by the W.I. L. and Red Front bands. A program of revolutionary music has been prepared by the Workers Music League.

Two mass recitations, "Scottsboro" and a new piece entitled "Mad Election," by Victor Jerome will be presented by the Proletarian, as well as special numbers by the "Red Dancers."

Ford in Brownsville Tonight
James W. Ford, Communist candidate for the vice-presidency will speak in Dunbar Center, Parkersburg Street and 4th Avenue, Brownsville, tonight, Wednesday evening, opening the election campaign in that section, and in preparation for the Red Ratification Rally in Coney Island Stadium.

To reach Dunbar Center Hall from Manhattan, take the B.M.T., 14th St. Line to Atlantic Avenue, change to Fulton Line, get off at Troy St., and walk one block back.

Thursday, Ford will speak in the Workers Center, 27 Hudson Street, Yonkers, and Friday in Harlem at Renaissance Casino, 138th St. and Seventh Ave.

Music Picnic Merged
The picnic and entertainment of the Workers Music League, scheduled for July 9, at Ulmer Park, will be merged with the Red Election Rally to be held in Coney Island Stadium. Tickets sold for the affair will be accepted at the rally.

Tag Day Funds!
All workers and working class organizations who participated in the Tag Days of June 25 and 26 are requested to account for their boxes immediately to the United Front Election Campaign Committee, 50 E. 13th St., 5th floor.

Need Cars, Bicycles
All workers having cars, bicycles, and motorcycles, are invited by the United Front Election Campaign Committee to meet Thursday, at 8 p.m. at Workers Center, 50 E. 13th St., to organize a parade for the Red Ratification Rally July 9 at Coney Island Stadium.

Got One Month's Pay in 13; Company to Cut Wages 10 Per Cent
CHICAGO, Ill.—Despite the fact that 1,200 West-Park's systems employees have received but one month's pay in the last 13 months, the company is expected to be consolidated by the announcement that this won't affect their back pay, and by the time the city gets around to paying them (if ever) they won't feel it to much.

Southern Blvd., Bronx, at 8 p.m.
All veterans and ex-servicemen are invited to attend a meeting to organize a "Workers' Ex-Servicemen's League" at Coney Island and Brighton Beach. Meeting will be held at 2935 W. 125th St., Coney Island, at 8:30 p.m.

Conducted by Vern Smith will speak on the "Dues Bill at Branch No. 558, I.W.O., at 10 E. 15th St., Room 310, at 8:30 p.m. Admission 10c.

The West Bronx Branch, F.S.U., will hold an important membership meeting at Paradise Valley, 15 W. 20th Ave., at 8 p.m. Admission 10c.

A lecture and discussion on Nicaragua and the attitude of the Anti-Imperial League toward Sandino will be held at the Workers' School, 35 E. 12th St., Room 205, at 8 p.m. Admission 10c and everybody is welcome.

Contempt Charge In Shoe Strike

Jail Six Other Workers On Picket-Line

NEW YORK.—Thirty workers were arrested as a result of mass defiance of the anti-working class injunction against picketing in the I. Miller shoe strike today.

Over five hundred workers broke through the police lines to show their solidarity and determination to win the right to strike.

All workers are called upon to support the strike which is under the leadership of the Shoe Workers Industrial Union. Report to the strike headquarters at 1223 Jackson Ave., Long Island.

NEW YORK.—Six striking shoe workers, arrested yesterday for violating the anti-picketing injunction issued last week to I. Miller and Sons Shoe Company, were to appear this morning before Magistrate Doyle in Fifth St. Court, Long Island City, to answer charges of criminal contempt of court.

The picket line in which they were arrested marked the opening of an attack of shoe workers against the oppressive injunction which prohibits picketing from coming within five blocks of the Miller plant. Hearings to make this injunction permanent has been set for July 11 before Judge Wensel in Brooklyn Supreme Court.

Arrested on Line
The six, who were singled out because they carried placards, were arrested immediately after the picket-line formed.

Magistrate Doyle, upon hearing the charge, ordered the case continued until Friday. Attorney Tauber, for the union, announced that he was prepared to try the case and insisted on an immediate trial. Magistrate Doyle, apparently sorry to give up his chance of keeping the strikers in jail until Friday, reluctantly agreed to hear the case today. Tauber then asked that the six be released without bail in his custody.

Magistrate Doyle, however, ordered the men held in bail of \$500 each. The attorney for the strikers made a vigorous protest, declaring the bail to be exorbitant and pointing out that the \$500 piece was being asked of men who have been jobless for more than two months. He asked that the bail be reduced to \$25. The magistrate, apparently unprepared for such vigorous defense methods, immediately reduced the bail to \$100 each.

Solidarity in Court
Two hundred other strikers, packed the small magistrate's courtroom during the proceeding in a demonstration of solidarity with their six arrested fellow workers. As they filed from the court room, signs belonging to the I. Miller company union mingled in the crowd shouting, "There's no more strike at I. Miller's boys." Strike leaders later replied to this feeble effort to shake the spirit of the strike by announcing that plans are going forward for a vigorous fight against the anti-picketing injunction.

WOMAN WITH CHILD DROPS FROM HUNGER
CHICAGO, Ill.—On Saturday, June 26, about a quarter after twelve, I was at the Humboldt Park Field House, waiting for relief. A woman about 37 years old, with a child two and a half years old, fainting from hunger and exhaustion, but not a single one of the case workers did a thing for her, nor did they show any sympathy for her. I tried to get her name, but she was too weak to speak.

This coming Thursday active workers of the dress trade are called to a meeting to discuss the plans for conducting the campaign amongst the mass of the dressmakers of the Industrial Union shops, open shops and International shop.

VETS PARADE IN N.Y. FRIDAY

Worker Vet Jailed On Union Square

NEW YORK.—The Workers Ex-Servicemen's League will hold a mass rally and demonstration Friday, July 8, at Tremont Ave. and Southern Blvd. at 6 p.m. in support of the war veterans march to Washington.

All workers and veterans are urged to attend this meeting and declare their solidarity with the worker veterans who are fighting against starvation in Washington.

A meeting called by the Post 1 of the Workers Ex-Servicemen's League at 23rd St. was smashed by police today. Patsy Denato, member of the W. E. S. L., was arrested on Union Square while exposing the starvation program of the Waters clique in Washington.

CALL FOR METAL CONVENTION OUT
N. Y. Meet To Be Held July 30-31

The Metal Workers Industrial League, New York District, is carrying on intensive preparations for its Convention which is to be held on July 30-31.

In its call for this Convention the NWIL states: "Continuous wage-cutting, mass unemployment, increased speed-up and general worsening of conditions in the lot of the workers in the metal industry." The call further points out that the only way to better these unbearable conditions is to build a powerful union in the metal industry that will be able to carry on the every day fight for better conditions.

A high point in the pre-convention activities of the NWIL will be the big mass meeting of metal workers to be held on July 28 at Irving Plaza with Clarence Hathaway, who was prominent in organizing and leading the International Association of Machinists in the day when it was still a militant organization, as the main speaker.

A special membership meeting of the Metal Workers Industrial League, to rally the members for these and other activities in connection with the Convention will be held on Friday, July 8, at 8 p.m. at Irving Plaza, Irving Place and 16th St., Manhattan.

Hoover for More Funds to Bankers
Workers Fight for Social Insurance

WASHINGTON, July 5.—The President will veto the "relief" bill in its present form and call an extra session of Congress should the one now in progress fail to pass one fully complying with his suggestions. Representative Snell, Republican, predicted here yesterday.

The "relief" bill agreed upon by Senators and Representatives conferring on the Wagner and Garner plans retains the main features of both. These however, were modified by the conferees in order to bring them nearer to the President's outright hunger suggestions.

The sum allocated to public works of "non-profit yielding character" was thus reduced from \$500,000,000 to \$300,000,000. In addition the provision calling for an issue of governmental bonds to finance such public works was removed from the bill. The Government is left free to "take care" of these public works through current financing measures.

This supplies the government with an excuse for not starting or discontinuing the public works after they are started. The excuse will be "financial stringency" or "lack of adequate financing possibility."

But this drastic reduction of the sum called for to finance public works without any issue of bonds, does not satisfy the President who remains of the opinion that not even a slight chance of securing employment in the distant future be given to a few of the workers now facing starvation.

The hunger and war President is openly opposed to this provision and wants it stricken out of the "relief" bill. His policy is that not the workers but the bankers and industrialists be relieved. On the other hand the workers are increasing their struggle that not a cent should go to the bankers and the funds be used for unemployment insurance.

Aid the Bosses, Says Hoover
In line with the Hoover policy, the republican and Democratic Senators and Representatives conferring on the Wagner and Garner bills, agreed already to so modify the provision for \$1,500,000,000 to state and municipal governments as to authorize loans to private industrialists for "self-liquidating" projects.

They also agreed to change the stipulations of the Wagner bill for loans amounting to \$300,000,000 to state for "immediate relief purposes." The "relief" bill now calls for \$200,000,000 of such loans, leaving \$100,000,000 for the President to dispose of at his discretion.

Hoover approves of these provisions and is not against having them retained in the bill.

Painters in Kutler Shop Strike Against Twelve-Hour Day

NEW YORK.—The Kutler shop in Brownsville went on strike Tuesday morning against a working day of 11 and 12 hours. The boss indicated his willingness to sign an agreement with the union, but he refused to take back two of the workers who have been most active in organizing the shop.

The Shop Committee flatly refused to do this. The Brownsville local of the Alteration Painters' Union is leading the strike. The local meets every Thursday evening at 1449 New York Ave. A mass meeting of painters has been called for Wednesday, July 13, at 8 p.m. at Irving Plaza.

The Bronx local of the Alteration Painters' Union meets every Monday at 1130 Southern Boulevard. The Williamsburg local meets on Wednesday at 11 Graham Ave.

1,000 FURRIERS DEMONSTRATE
New Shops Come Out On Strike

NEW YORK, June 5.—Thousands of furriers, in answer to the call of the Industrial Union came out to the fur market this afternoon to participate in an open air meeting and demonstration which was addressed by Ben Gold and other leading comrades of the Fur Dept.

At this meeting the workers exposed the bankruptcy of the council, its treacherous activities carried by them, and informed the new furrier shop that he will meet the fate of his predecessors.

The mass meeting was one of the ever carried thru in the fur market. It showed the enthusiastic support for the Industrial Union which has been leading them in struggle for better conditions.

A number of new shops came down on strike today and it is planned to spread and intensify this campaign to include every worker in the fur trade.

STAGE-SCREEN
SOVIET THEATRE DEALS WITH LIFE, SAYS PLAYWRIGHT

"The Russian theatre is interesting because it deals with contemporary life and because its dramas include social problems untouched by the American theatre," Elmer Rice, American playwright now in Moscow, told a Moscow Daily News reporter.

Rice wrote "Street Scene" and "Counsellor-At-Law." He has spent five weeks in Russia, visiting theatres, talking with Russian dramatists and travelling in the Caucasus and Crimea under the auspices of the Open Road, an organization which promotes cultural contacts through travel.

"The standard of production in the Soviet Union is high," he continued, "the situations in the plays interesting and the acting excellent, but in my opinion the propaganda would be stronger if more public."

"In 'Pearl' at the First Art Theatre, there was plenty of life and take up to the last act, but a too obvious ending destroys something of the art and interest of the play."

Rice was delighted with Musorgsky's comic opera, "The Fair at Sorochin," at the First Art Theatre; he ranks it first among the productions he has seen in Moscow. Like so many foreign visitors, he commented on the enthusiasm of Moscow audiences and the vitality of drama here.

UNIONS CALLED TO BACK C. P. TICKET

Trade Union Council Calls Conference

NEW YORK.—A conference call has been sent out by the Trade Union Council to all affiliated unions and leagues to the shops and shop groups and to the opposition groups in the A. F. of L. for a special election campaign conference on July 21, at the Trade Union Council headquarters, at 7:30 p.m.

The conference will devote itself to working out methods for participating in the election campaign and drawing in the widest section of the workers into the election struggle.

Pointing out that the A. F. of L. misleaders have carried on a deliberate policy of trickery about "non-partisanship" and "keeping politics out of the unions" while supporting the candidates of the capitalist parties, the T. U. U. L. calls upon the workers to support the party which has shown not only in words but in deeds that it fights for the working class, the Communist Party. Representation at the conference will be on the basis of one delegate from each shop, A. F. of L. opposition groups and from the union membership on the basis of one delegate for every 200 members.

In preparation for the conference the T. U. C. calls upon the unions to issue special leaflets and carry on an intensive campaign to make the United Front Trade Union Conference on the election campaign a success.

SOVIET OIL OUTPUT 7 PER CENT HIGHER

Scottsboro Mother Fight Spreads
The tour of Mrs. Ada Wright and J. Louis Engdahl, who are arousing Europe with the Scottsboro message, may be greatly extended, it was announced today at the national office of the International Labor Defense. Mrs. Wright, who is now in England, will proceed directly to the Scandinavian countries, Norway, Sweden, and Denmark. She will be joined there by Engdahl, who addressed huge gatherings in Berlin on July 2, at which the Scottsboro question and the demonstration against fascism made a joint issue for the crowds in both Lustgarten and Karlshof. In the Lustgarten, according to the New York Times of July 3, there were 150,000 persons assembled. After the Scandinavian tour, the I.L.D. states, the tour as now planned will include re-visiting Geneva, where both Engdahl and Mrs. Wright both spoke a few weeks ago, in order that they may attend the World Congress Against War to be held there early in August. From Geneva, the two Scottsboro champions will proceed to Spain and the southern provinces of France, then go to the Balkan countries, Bulgaria and Greece.

Calif. Boss Court Ruling Bars Party from Ballot; Workers to Write in Names

BULLETIN
SAN FRANCISCO, Cal., July 5.—Organized protest has been held in the state to accept the signature to place the Communist Party of the state on the ballot, in defense of the decision of the supreme court. The total number of signatures accepted is 7,500.

Fourteen counties complied with the court order and threw out 24,000 signatures of registered voters, thus barring the Communist Party from the ballot.

Despite this ruthless attack against militant labor, thousands of workers and farmers of the state are expected to write in the names of Foster and Ford in the coming national election.

The Committee charges that the arrests, which during the past week have been made especially in steel mills of the Bethlehem Corp.—war workers—are a result of a definite policy of terrorism on the assumption that the Dies bill will be enacted into law.

1 KILLED AFTER GARIBALDI MEET

Workers Provoked Into Fight by Mis-leaders

An antifascist worker, identified as S. Arena, Italian, was killed at the St. George Ferry Terminal as he was alighting from a train filled with other Italians returning from a stormy commemoration of Giuseppe Garibaldi in Rosebank. He was shot in the back of the head with a 32-caliber revolver.

The murder is an aftermath of two clashes between anti-fascist workers misled by Carlo Tresca, anarchist adventurer, and members of the Grand Lodge of the Sons of Italy. This is a mass organization comprising several thousand workers, but is led by Italian-American fascists.

Carlo Tresca and Gerolamo Valente, the business manager of an Italian social-fascist paper printed here, organized a demonstration to commemorate Garibaldi at the house where he lived while in the United States. Garibaldi was a factor in the war for the unification of Italy.

The Grand Lodge of the Sons of Italy had also organized a commemoration of the "Italian Washington" as some of the self-styled antifascist leaders called him. This organization is in charge of the house where Garibaldi lived.

Poisoned by the mischievous propaganda of their leaders, the antifascist workers and the workers belonging to the Lodge of the Sons of Italy fought against each other. Many were wounded and had to be taken to the Hospital. 80 were arrested.

Carlo Tresca and the other social-fascists claimed that the Sons of Italy organization had no right to commemorate Garibaldi. Tresca eulogized Garibaldi as "a true revolutionist."

JAPAN FASCISTS PARADE TO PUSH FOR WAR ON USSR

Japanese imperialism to establish dollar control over China. It accused the U. S. government of inspiring the Nanjing Government to resist the Japanese seizure of Chinese customs revenues at Dairen and Antung and other Manchurian cities.

The Open Letter, which was published in all the Japanese bourgeois papers, intimated that Wall Street competition and opposition to Japan's aims in China would be met with an open declaration of war against China, thus facing the United States with a definite choice of abandoning its loot in China or going to war with Japan. It justified the Japanese seizure of Manchuria by drawing a comparison with the robber act of the United States in wresting the Panama Canal territory from Colombia and setting up an American puppet government in Panama.

Recognize Puppet State.
Count Uchida, the new Japanese Foreign Minister who assumed his duties yesterday, is reported preparing a statement in which he will announce his intentions to recognize the Manchuria puppet state.

Sir Francis Lindley, British Ambassador to Japan, is reported to have advised the Japanese Government against "haste" in recognizing the puppet government. The British, who have consistently supported the Japanese aggression against China, have expressed alarm that hasty action by the Japanese might further aggravate the struggle between the imperialist powers for the lion's share in the looting and partition of China.

BONUS ARMY CHILD DIES OF HUNGER

(CONTINUED FROM PAGE ONE)

death of the child on Congress and Hoover and the whole vicious capitalist system which is condemning millions to misery and death from starvation.

Peace Urges Fight for Food.
Peace called on the veterans to come out before the Congress and White House in masses and demand food.

The bonus marchers have been starving for weeks while there is plenty of food in the warehouses of Washington and in the Army Quartermaster's possession, said Pace.

"During the time the veterans and the unemployed workers all over the United States have been starving Congress has voted over 2 billions for the bankers and railroads and for the war and navy departments."

"The demonstration called by Waters is not an organized mass demonstration calculated to bring us relief or the bonus. Waters is trying to discourage the veterans to go home and give up the struggle. The veterans must defend themselves and their agents. We must demonstrate in masses against the adjournment of Congress. We must demand the bonus, our back wages be paid, demand in no uncertain terms that we must demand that food be furnished us by the government and that the war funds be used for unemployment insurance. Our fight for the bonus must also be a fight against hunger and war."

Resentment Against Waters.
Resentment rose high throughout the ranks of the bonus army when it was learned that Waters called off the dogs against the demonstration at the White House July 4.

"Why should the rain stop us," said the vets who were already soaked to the skin.

"We're all wet anyhow," the veterans grumbled, "and we might just as well be wet at Herbie's house as here in Anacostia mud flats."

Terre Haute Relief Agent Threatens to Kill Hungry Man

(By a Worker Correspondent)

TERRE HAUTE, Ind.—An unemployed worker named Benjamin was refused help three different times by Trustee Sankey for refusing to work in the community gardens. This unemployed worker is old and in poor health.

A committee of five from the Unemployed Council went to the trustee to demand relief for this old worker. We were received by Sankey, who went out almost immediately, locking the door behind him. After a short while in came three dicks, Rush, Poncannon and Every, whom Sankey called on the telephone. Sankey flew into a rage, threatening to kill us, saying that he would have thrown Benjamin out of the second story window at one time if his wife hadn't prevented him from doing this.

The unemployed of this town aren't being frightened by such threats and are organizing themselves to carry on a relentless fight against fascist labor.

SCHENECTADY HIT HEAVY BY CRISIS

General Electric Workers Tell About 8 Hour Week

By S. VAN VEEEN

Schenectady is a typical American city of typical American traditions and illusions. For instance, Schenectady workers believed that hard work and thrift would secure them against a rainy day. They believed in the paternalism of the two big industries of the city, General Electric and the American Locomotive Works.

They believed in what Mr. Hoover calls "rugged individualism."

They believed in the "chicken in the pot and the car in the garage."

Three years ago the city was in the grip of depression. It was a rainy day. Four years ago the G. E. (as the electric plant is called in this city) was employing approximately 26,000 workers. The Alco (locomotive works) employed 3,000.

At the present time there are 5,000 working in the G. E. and only about 500 maintenance men in the Alco. One thousand office workers are to be laid off at the G. E. next week. Half of the workers at the G. E. are now working either a few days a week or a few hours a day. At this moment workers are being laid off.

There is a standing joke among G. E. workers about the 8-hour week.

In the city of Schenectady the General Electric stands, a great plant like a city in itself, which heralds itself with a great electric sign, G. E. And in this city of electricity hundreds of homes are today without light and without gas.

Health Declines.
The health of the Schenectady

workers is going rapidly downhill. The Commissioner of Health gives the following figures: In 1927 the clinics were treating 8,406 cases and in 1931 the city was treating 19,804 cases, an increase of 135 per cent.

Thousands of laid-off G. E. workers carry the marks of injuries received working at the plant. Some of the injured workers receive compensation, anywhere from \$5 to \$15 per week. As in all big industrial plants, the injured worker has to fight for his claim. The company has a lawyer and they get out of paying every nickel they can.

Compensation.
I am personally acquainted with a number of cases. One worker permanently crippled four years ago had his hospital expenses paid and receives only \$5 for himself and family a week to live on, although he was earning \$35 per week at the time of the accident and had been working as a machinist for years in the G. E.

Another worker, a woman, had her arm broken. She received no compensation. Working for the Board of Education as scrub woman, she injured the other arm and hand, and is unable to work at all. She receives \$4 per week from the city welfare department at the present time.

Many workers have to wait weeks, months and years for compensation.

Welfare Tactics.
The tactics of the welfare department here are exactly the same as elsewhere; the investigators do everything they can to prevent the money

from getting to the unemployed workers.

They tell the mothers that one can of milk mixed with three of water makes good milk, as good as fresh bottled milk. They tell the mothers who complain that gas and electricity is shut off that they should put the children to bed at 7 o'clock and thus they will not need any lights.

For many years engineers, machinists and skilled workers in the General Electric Works worked and saved. They built little homes and saved against that "rainy day." Four years ago the G. E. had to lay off. Two years ago only half the workers were employed, and today thousands of skilled workers are living on the last of their savings with no idea of what they will do when everything is gone. Hundreds have moved away in the vain hope of finding jobs elsewhere. Hundreds of families have doubled up to save rent and light.

Hundreds of American skilled machinists are losing their little homes through foreclosures; their savings are gone; they are turning to the city for relief. The city welfare department is wise enough to give them a little relief to keep them from joining the struggle to keep alive. But the few dollars some of them receive is not enough, and the result is that these American workers, who are told to keep away from the foreign born, will more and more throw in their lot with the unemployed masses in the city.

WHITE WORKERS DEFEND NEGRO

Communists Lead Fight on Terror

CHICAGO, July 5.—Another battle in the class war has been won. Successfully defying police terror, five hundred white workers demonstrated on Friday, June 17 in front of 1248 South Fairfield Avenue, where a Negro worker's home had been bombed by a white hoodlump neighbor under the influence of bosses' propaganda.

Walter Grant the Negro worker lived in Chicago all his life. He started to work at the age of 15 for a painter and decorator, but was barred from the painters' union because of his color and the anti-semitic class policy of the F. O. L. At no time was he able to earn money to set aside for a "rainy day."

For the last two years he and his family, consisting of his wife and 7 children, have existed on the near-starvation diet of the charities.

Grant has lived for the past 10 years on the West Side, and has never had trouble with his neighbors, workers like himself.

About May 1st of this year he moved to 1248 So. Fairfield Avenue, and a next door white neighbor, Reuben Tallman, began to harass him. Tallman circulated a petition for the removal of the Negro family. Those who signed were mostly landlords and small home owners who were told that if they would not get the Negroes out of the rear building where the Gants lived, property would be depreciated, the property owners in the run down neighborhood of 12th and Fairfield. Tallman then began to use intimidation, throwing stones through the window of the Gant home, so that one of the children was injured. He even went so far as to slap the Negro children.

The climax came at 1:35 a. m. on June 15th when a bomb exploded endangering the lives of the Gants. Fortunately no one was hurt, but the bomb explosion tore the foundations, and part of the rear of the house.

By six o'clock of the same evening the Communist Party of section three had issued a leaflet calling upon the workers, Negro and white to show their indignation by demonstrating in front of the home. A large crowd responded to the call. T. workers were attacked and dispersed by the Red Squad and a large number of police. A few days later another leaflet was issued for a demonstration. Again the police prevented it, defending the terror inflicted by the white property owners against the Gants.

On Friday, June 17, a meeting was

had not conducted sufficient struggle for Negro rights in Hammond. The defendants then testified, declaring that they recognized their mistakes and pledged to prove in the future that they are no longer poisoned with chauvinistic ideas.

Bring Jury Verdict.
The workers' jury then brought back the following verdict:

1. That all comrades accused are guilty.

2. That their statements are insufficient, but that they will have to prove their sincerity during the coming month by each recruiting one Negro youth into the Y.C.L., by carrying on special activity among Negro youth in connection with the Scottsboro campaign and the local struggle for Negro rights.

3. That the comrades who testified should be removed from all leading posts until they prove by carrying out the above that they are not white chauvinists.

4. That those who failed to appear on trial should be expelled from the Y.C.L.—with provision for reinstatement only when they have shown in practice that they are willing to carry out in full the program of the Y.C.L. on the Negro question.

called by the Communist Party at Albany and Roosevelt. From there the workers, about five hundred, marched to the Gant home, and there drew nearly every one living in the block, men, women and children.

When the police arrived, they tried to drive the crowd away. A precinct captain was seen handing out black-jacks to two or three hoodlums. But the Communist speaker called for an expression of unity of Negro and white, which was expressed by shouts and handclapping. Stopped by this militancy, the police and gangsters decided not to interfere further. Fellow worker Grant joined the Communist Party.

This has been shown once again how the Communist Party, the Party of the working class, leads and unites the workers of all colors and all creeds. This has been proven once again that the Communist Party is a party of deeds as well as words. Thus the Communist Party has shown what it means by plank no. 4 in its 1932 election platform, equal rights for the Negroes and self-determination for the black belt!

Communist Demand "No Child Labor."

In opposition to the hypocritical "child-labor" plank of the Socialist Party, the Young Communist League, fully supporting the election demands and candidates of the Communist Party, comes to the working youth of this country with the demand for the abolition of child labor under 14; government support for all children now working and for all children of the unemployed.

Going into full swing in the nation wide campaign to rally the young workers, farmers and students behind the election campaign of the Communist Party, the Young Communist League is touring two of its leading members, Tony Minnerich and Mary Himoff.

Minnerich's tour will officially open at Cleveland on July 23rd, the date on which the Young People's Socialist League will hold their convention. A mass meeting is being arranged at which the young Socialist leaders will be challenged to defend their position before the young workers of Cleveland.

Prepare for August 1st.
While Minnerich, who is a former young miner and leader of many big strike struggles in that industry is touring the eastern section of the country, Mary Himoff will start her tour in Chicago at a joint mass meeting at which both will speak. She will also issue a challenge to the leaders of the Young Peoples Socialist League in Milwaukee to defend their betrayals of the young workers in open debate.

Both tours will also be used as high points in mobilizing the masses of young workers for struggle against imperialism war and for defense of the Soviet Union. Especially with the approach of August 1, the day on which the last war was declared will the tours serve to stimulate the youth into militant mass actions against the criminal aid given by Wall St. to the murderous campaign of the Japanese imperialists against the Chinese people, and the ever more insolent provocations against the Soviet Union.

Over 2,000 March in Omaha Bonus Parade, Hit Waters Clique

Waters Recruiting Agent Gets Slim Crowd at Patriotic Meet

(By a Worker Correspondent)
OMAHA, Neb.—The local representatives of the Bonus Expeditionary Forces (Waters' men) made an attempt to stage a big recruiting meeting here, but they failed.

The capitalist press stated that one of Waters' men would be the main speaker at a meeting here last Wednesday. The speaker failed to show up. He had been in the city all day, had felt the pulse of the veterans here and, seeing that there was too much anti-Waters sentiment, took a sneak.

Brown Is 100 Per Cent
But Lloyd Brown took charge of the meeting. Brown asked all the veterans and unemployed to support Waters.

He said, "We are going to Washington not as radicals, but as 100 per cent Americans! This is no radical movement! We will carry the American flag, and if we find a Communist among us, out he goes. We are for America. It is our country and we are ready to defend it."

Must Steal Rides.
He then told the veterans that they would have to steal rides on freight trains to Washington.

"Why make the trip in dirty box cars, if this is our country," a veteran exclaimed as the meeting broke up.

Between two and three thousand veterans paraded here Monday night for the bonus—but there were not over a few hundred veterans at Brown's meeting, despite the publicity given the latter in the press.

W. E. S. L. Has Program
Veterans and workers should be on their guard against the Waters misleaders. The W. E. S. L. is trying to sell out both the veterans and unemployed workers.

In my personal opinion, the only organization that is really putting up a fight for the bonus is the Workers Ex-Servicemen's League. This organization has the right program.

ANTI-WAR MEET IN BOSTON TONITE

Workers Break Up Anti-Soviet Meet

BOSTON, Mass., July 5.—Boston workers will answer with a giant anti-war demonstration on July 5 the vicious propaganda of the Boston Anti-Communist League for armed intervention against the Soviet Union.

At a meeting last Friday of this new fascist organization, the notorious Daniel J. Halley, anti-working class spy and stool pigeon and head of the Boston Secret Service, was the main speaker. This scoundrel, after ballyhooing about the non-existent prosperity and freedom under the U. S. hunger government, declared:

"When the hour strikes, all true American citizens must even shoulder arms against Russia, if called upon to do so."

This attempt to incite another bloody world slaughter and an attack on workers' Russia was met by hoots and jeers from the workers.

A war veteran shouted: "We want the Bonus—not WAR!" Others shouted: "How about jobs?" The meeting then ended abruptly amid the jeers of the workers who showed great militancy that the dicks present did not dare molest them. The workers left the hall singing the "Internationale."

The Boston branch of the Friends of the Soviet Union has arranged the mass meeting for Wednesday night, July 6, at Franklin Hall, Berkeley and Appleton Streets, as part of its campaign to combat the lies and war incitement against the Soviet Union.

Sanio Merabile, a member of the American workers' delegation to the Soviet Union will report on the gigantic achievements of the Soviet Union in building Socialism and abolishing unemployment and race hatred.

The Orphan Jones Decision

A few weeks after the partial victory achieved by mass pressure in the Scottsboro Case, the working-class can record another important victory. Mass pressure which three times forced the lynch courts of the ruling class to postpone their murderous plans to legally murder the innocent Negro boys has likewise forced the Maryland Court of Appeals to reverse the action of the lower court and to grant a new trial in the case of Yuel Lee (Orphan Jones).

Yuel Lee was sentenced by the Maryland lynch courts to hang in one of the most brazen frame-ups which even American capitalism has ever attempted against the Negro masses and the working-class. Because Lee represented being robbed of his wages by a rich white farmer, when the latter was murdered together with his family in a bootleg feud, Lee was at once arrested and framed-up by the police. The courts and the State of Maryland attempted to deny him the most elementary rights, such as the right to engage an attorney for his defense. He was finally railroaded to a death sentence at a trial at which Negroes were carefully excluded from the jury.

As in the Scottsboro case, the N.A.A.C.P. carried out in Maryland its role of assistant henchmen to the bosses. Soon after his arrest, the Baltimore attorney of the N.A.A.C.P. issued a statement declaring that Orphan Jones "was probably guilty." This was never repudiated by this organization.

The workers, Negro and white, took up the brutal challenge of the lynch courts. Hundreds of mass protest meetings denounced the frame-up of Yuel Lee and supported the International Labor Defense in its fight in the courts, in its demand that the courts recognize the attorneys provided by the I.L.D. for Lee and accepted by Lee. The workers demanded the unconditional release of this victim of lynch justice.

The present partial victory is a vindication of the revolutionary policy of mass pressure on the bosses lynch courts. They have been compelled to yield under the angry pressure of the masses. They have not freed innocent Yuel Lee, but are submitting him to a new trial in a pretense of "impartiality" and "fairness." Under this pretense they are maneuvering to disarm the vigilance of the masses in the attempt to carry through the lynch verdict.

The frame-up of Yuel Lee is a measure of the murderous oppression against the Negro masses. The vicious reign of terror on the Eastern Shore of Maryland which followed his arrest was deliberately organized by the rich farmers in an attempt to intimidate the thousands of Negro agricultural laborers held in virtual slavery on the Eastern Shore of Maryland, contracted out by Baltimore labor agencies and robbed of even the meager pay they are promised. Large numbers of Negro workers are framed-up and railroaded to death in this manner.

The Lee case is of particular importance today when seven of the young Scottsboro boys are in the shadow of the electric chair. The partial victory in both cases must serve as a further impetus to spread and build a tremendous defense fund for the Scottsboro boys and Yuel Lee and against the lynch verdicts of the bosses courts. The struggle for the freedom of Lee and the Scottsboro boys are part of the fight for the liberation of the Negroes from national oppression which lies at the base of the whole vicious system of lynch law.

The workers must be on guard against legalistic illusions in the "fairness" and "justice" of the lynch courts.

No faith in the bosses courts! Only faith in the mass power of the working class! Demand the immediate unconditional freedom of Yuel Lee, the Scottsboro boys and other victims of boss class rule!

Seeking an Alibi for Bank Crashes

COMMUNISTS are blamed for everything now-a-days. There are even those who hold them responsible for epidemics and earthquakes. When the Communists are blamed for the organization of unemployed demonstrations, for taking the leadership in the fight against wage cuts and hunger, for defending the rights of the workers, for struggling against imperialism and organizing the workers for the eventual overthrow of the capitalist system, the capitalists are indeed correct, although here it must be stated that many spontaneous movements arise without the leadership of the Communists. But this we say not by way of depreciating our own activities, but only to emphasize the need for more aggressive leadership to the everyday struggles of the workers.

But when the Communists are attacked for crashing banks and for creating bank runs, we must protest at such vile falsehoods. This slander is made by the Detroit Free Press in its editorial of June 30, when it stated that "the Communists in this country have learned by experience that an open, frontal attack upon America is bound to fail. So the Reds are working chiefly at under-cover programs. They spread slanderous and alarmist rumors . . . to take advantage of general depressed conditions," etc. This reactionary paper goes on to say that the "Reds" are working in Oakland County, Michigan, attempting to bankrupt the one bank left open in Pontiac.

We must say that not only is this vicious nonsense, but behind this lurks some rotten business. How can the whispering of Communists destroy the pillars of the banking system of the United States? We know of the trumpet calls of Joshua causing the walls of Jericho to crumble, but we have not heard of whispering rumors or even shouting causing the crashing of the banking strongholds of capitalism, unless these banks are insolvent and, what is more, attempting by some cunning to cover up their insolvency. When that happens, there are enough people of the capitalist world to spread the rumors of their insolvency. Not even children will believe the fable that the banks crashed because of Communist propaganda. The banks are going under as a result of the deepening economic crisis and the anarchy of the system which the Detroit Free Press has hailed as strong as the rock of Gibraltar. If the Detroit Free Press and the First National Bank of Pontiac are compelled to issue statements that the Communists are uttering malicious falsehoods in order to crash the bank, then we must say that the bankholders and other such people are simply trying to prove a bad alibi for the destruction of workers' savings.

There is a proverb that when people shout "Stop Thief," one should examine closely into the integrity of the shout, and it is not unlikely that this proverb applies to the Detroit Free Press and their banking supporters.

OUT OF THEIR OWN MOUTHS

IT is considered fortunate that so real an issue as prohibition should be available at this time to distract attention from the depression complex. That is why there is no very real desire to get 'action' in advance of the elections. From the Whaley-Eaton Service, July 3th.

This confidential news service which is sent to capitalist subscribers, confirms what the Communists have been saying—the dual of words about prohibition has been framed up by the capitalists in order to distract the masses from the real causes of the economic crisis and the misery of the masses. Prohibition, the bootlegging industry, is poisoning the entire capitalist system. But the issue of prohibition has been deliberately magnified in order to drown the cry of the masses for bread.

Capitalist "democracy" cannot function without artificially constructing issues and elevating minor questions to major importance. Otherwise, if the real questions of the capitalist system were thrust into the foreground, the masses would know their friends and enemies.

In the election campaign, while pointing out the degeneracy of the system, the Communists have exposed all revolutionary work in the name of the masses, and have shown the purpose behind this question as shown in the following:

A DICK WOULD!

Harold Foukred, Waters' right hand man in the Bonus Army and former office manager of the Burns Detective Agency in Philadelphia, called upon the veterans to support Roosevelt, the Wall Street lawyer.

Soviet Districts in China Grow in Power

By CYRIL BRIGGS.

WE MUST ourselves take up the fight against the Communists. With this brazen declaration the imperialist press in China greets the complete collapse of the fourth "Communist Suppression" campaign—the fourth major attempt of the Nanking butchers to re-enslave the emancipated toiling masses in the Soviet Districts of China.

This is the policy of bloody intervention of all the imperialist bandits against the Chinese Revolution. This policy of armed intervention in Chinese affairs, of looting and partitioning of China has been translated into action by Japan in her invasion and seizure of Manchuria. It is being carried out by the United States, England and France in their naval intervention at Amoy against the victorious 12th Chinese Red Army in Fukien Province. This is the policy voiced by the guns of the U. S. gunboat "Oahu" when on June 28th it shelled near Taiping (1,000 miles up China's Yangtze River) a body of 2,000 rebellious Nanking troops who were marching to join the workers and peasants Red Armies fighting for the emancipation of China.

Growth of the Soviet Districts

The accompanying map shows the tremendous growth of the Chinese Soviet Districts. During the past six months these districts have grown greatly in territory and power as a result of the sweeping victories of the heroic Chinese Red Armies and the upsurge of the agrarian revolution in an ever increasing number of Kuomintang districts.

While the Chinese Soviet Districts are not yet a continuous geographic unit, it is clear that the intervening territories are being rapidly freed of the blight of Kuomintang domination. Already these intervening territories have been cut down to narrow corridors. Even before the overwhelming Armies in Anhwei Province Red Armies in Anhwei Province, Soviet administrative entities in 1931 before the districts distributed over eight provinces. In these districts, the conditions of the masses are being gradually improved. The land of the big landowners has been confiscated and distributed among the poorer peasants. The illegal taxes carried over from the old feudal-military regime have been abolished, together with unscrupulous interest rates, which helped to bleed the peasants.

The cheap labor base of the imperialists is being destroyed with the promotion of the shorter work day and decent wages. This cheap labor base is used by United States and other imperialists to drive down the standard of living of the home populations in the United States and Europe. Finance capital invests huge sums in factories and mines.

Unemployment and Social Insurance is the central slogan of the Communist Party election campaign. Read a clear exposure of all the schemes of the capitalists and social demagogues to introduce unemployment insurance at the expense of the workers themselves in "Why Unemployment Insurance?" (3 copies), issued by the New York, N.Y. and W. A. F. of L. Committee for Unemployment Insurance.

Destroying Cheap Labor Base of Imperialists

In China, paying coolie wages, bitterly exploiting Chinese labor, using this cheap labor base in competition against American and European workers, to force coolie wages and a hunger standard on these workers. This base of the imperialists against the American and European workers is being destroyed in the Soviet districts.

In a desperate effort to maintain this cheap labor base against the

workers of America and Europe, the imperialists are seeking to crush the Chinese Revolution, re-enslave the emancipated populations of the Soviet Districts and partition China. The imperialist brigades have garrisoned the large cities of China with their troops. They are shedding rivers of blood in the vain attempt to crush the revolutionary movement rising in the cities. Imperialist gunboats are "patrolling" thousands of miles

Gorki Calls for Solidarity Against War

THERE is taking place in the world a double process: a part of the proletariat which has a strong political consciousness is striving in accordance with the teachings of Marx and Lenin to unite the proletariat of the whole world. declares Maxim Gorki, the well-known working-class writer.

"The capitalists sow international enmity and hatred. The proletariat united by the Communist International wishes to abolish in the whole world the senseless exploitation of its labor power; it wants to abolish the 'idiotic' order which inevitably results in over-production of food and various other commodities and starvation of millions of workers."

Trade With Workers' Blood. "The capitalists want to carry on trade. They want to carry on trade after having eliminated millions of workers with their wives and children from the ranks of the buyers—millions who have no money in order to procure clothing and bread. In the last resort they all carry on trade with the blood of the workers and the brains of the intellectuals. Their trade inevitably drives the capitalists of all countries into war against each other. As is known they conduct war with the forces and the hands of the same workers."

After declaring that at the present time France is the country which is chiefly sowing hatred in the capitalist world, Gorki says

that even if France is vanquished by another imperialist country, international enmity is not ended. He adds that this enmity will again lead to a blood-bath, as it always was and always will be.

"If the whole mass of European workers do not clearly perceive in what a criminal circle the capitalists have enclosed them—the will of a tiny handful of people inspired by a morbid greed to enrich themselves out of the blood of the working people."

Pointing out how the capitalists sow hatred in the world and thereby poison the proletariat, Gorki shows how naive, to put it mildly, some German workers and allegedly some "Communists" were in voting for Hitler, if they really did, out of hatred toward France.

Boose Hate U.S.S.R. Leadership. The great working-class writer then indicates the main object of the particularly savage hatred of the capitalists in Europe and in America. The Soviet Union—he says—is the object of this hatred—the country where "capitalism has been abolished and where the workers and peasants, under the leadership of the Party of Lenin, are the complete masters."

"For 15 years—has continued—the Party of Lenin has shown the capitalists what power and talent lie hidden in the proletarian masses; and the capitalists themselves are beginning to see that the working classes are governing the country

of Chinese rivers, carrying on their sinister intervention in the very heart of China, raining death on the revolutionary worker-peasant masses in the Soviet Districts, actively leading the campaign of the Nanking butchers tools of imperialism.

Defense of China is Defense of U. S. Masses

The fight against armed intervention in China, against the looting and partition of China, is a fight against the institution of coolie wages in the United States against the wage-slashing policy initiated and supported by the U. S. Hunger Government, against the vicious attacks on the living standard of the American masses.

The defense of the Chinese people and the Chinese Soviet Districts is the defense of American working class against hunger and war policy of the Wall Street bosses, against the criminal drive for armed intervention against the Soviet Union and its triumphant Socialist construction.

Workers of America! Rally to the defense of your class interests against the vicious offensive of the bosses! Defend the Soviet Union! Stop the production and shipment of arms against the Chinese People and the Soviet Union! Demand all war funds for the unemployed! Intensity the fight against hunger and war, for bread and security, for immediate relief and unemployment insurance paid at the expense of the bosses and their government!

Incomparably better and more intelligently than they. With this recognition, however, the hatred of the bourgeoisie increases against the Socialist state. The anguished "laws" of competition do not permit the robbers and exploiters of labor power to unite in order to deal a common blow against the advance guard of the world proletariat. Nevertheless, the industrial bandits are uninterruptedly endeavoring to organize for an attack on the Soviet Union, just as they are trying to call forth a hostile attitude to the Soviet Union among the workers and intellectuals.

Preparing Last Desperate Fight. Recalling the lies and calumnies circulated by the capitalists in an effort to discredit the Soviet Union in the eyes of the workers, and exposing them as maneuvers designed to keep the workers from fighting in defense of the Socialist Fatherland, Gorki says:

"The international mutual aid of the workers must bear not only an economic, but also a political character. In any case it must find expression in such a tolerant attitude toward international adventures as the Russian emigrants are, who are prepared to do anything in return for a Judo fee."

After denouncing the activities of Kerenski in Paris, he speaks briefly of the role of English workers in regard to the imperialist policy of the British capitalists.

"It is quite clear how great the role of the working class can be in regard to the question of disarmament," he concludes. "It is of greater importance, however, that the proletariat realizes that it must prepare with its reason and its hands for the last desperate fight, the fight for rule over the whole world."

WET PLANKS AND THEIR BUILDERS

By ENBEE

THERE is a way of getting dippy on beer without drinking it. All you have to do is to take the word of the Democrats that beer can easily be turned into bread and that the crisis of capitalism can be drowned dead in a stein of beer. There is quite a "kick" in this frothy theory which creates the illusion that the way out of the crisis lies through the brewery.

You are going to get a lot of this froth in the coming election campaign. It will be offered to you as a guarantee of your "personal liberty." It will be served up to you with a balanced budget on the side, and the chiefs of the A. F. of L. will peddle it as sure-fire unemployment relief. There is no harm in swallowing a glass of beer now and then, but the workers who will swallow this frothy nonsense about salvation via the brewery will find themselves drowned into helplessness against capitalist starvation, to the great exhilaration of all capitalists.

The recipe of turning beer into bread is quite simple: two millions of workers engaged in the beer industry will supply enough buying power to make the wheels of all industry go round, and everybody will get a job and a chance to buy both beer and bread. Ain't it just grand?

It is, or it means to be—for the capitalists. Right now capitalism is in dire need of a noisy "issue" to drown out the rumblings of fifteen million empty stomachs.

As to the magic formula—beer equals bread—we don't have to theorize about its workings. There is legal beer in practically every capitalist country, and if you consult the latest statistics on unemployment in Europe you will see how well off the workers are under legal beer. There is much beer and more starvation in Germany, there is plenty of hard liquor and harder mass-misery in England, and for that matter there is a half million speakasies (more or less) in the United States selling booze and beer to those who can afford to buy it. But that did not get you a job, did it?

The Socialists anticipated the wishes of the bosses by adopting a wet plank. The Republicans, too, have made an attempt to pickle the crisis in alcohol, and the Democrats have built their starvation platform on the illusory foundation of a beer bath. Talk about a wet plank, it really should be called a wet blanket, intended to smother the fighting spirit of the starving masses against starvation.

The only party with a clear-cut stand on prohibition is the Communist Party. Our stand is against the present vicious prohibition law. At the same time we are against alcoholism, which can be wiped out completely only through elevating the cultural level of the masses through the overthrow of capitalism. The issue in the present election campaign is not the stinking prohibition froth, but bread for the masses.

Wage Cuts Do Not Bring Prosperity

By I. AMTER

SINCE November, 1929, when Wm. Green made the agreement with Hoover of no strikes, and Hoover promised no wage-cuts, there have been systematic wage-cuts throughout the country. Faced with the breaking of the promise by Hoover, Green, Wolf and company came forward with the theory that it is necessary for the workers to accept wage-cuts, as this would mean the basis for a revival of industrial prosperity. This has been the position of the bosses of Wall Street and of Hoover. This has been particularly emphasized by the building contractors. Though the official wage scale was not reduced until this year, nevertheless the workers who had a scale of \$13.20 a day were happy and lucky if they got jobs at \$5, \$6 and \$7 a day, and then only worked one or two days a week.

Despite the fact that the real wage scale of the building trades workers of the country was one-half of the official scale, building construction has declined month after month, and in the state of New York, during the month of May, was 95 per cent below the month of April.

Wages On Starvation Level

Wages have been reduced to a starvation level. It is not only in Kentucky and Tennessee, where the miner practically starves when he is working, but even in industries in the North, textile, etc., girls and women work 50 hours a week for as low as \$2.35 a week. However, this has failed quite naturally to increase production. On the contrary, together with the declining wages, there has been a decline in production. This does not mean that the profits of the corporations have diminished. It is true that more than 3,400 bank crashes took place in the year 1931. These, together with the large number of business failures, comprised mainly

small concerns which have been crushed to the wall. If there have been exceptions like Insull, Krueger and T. O. Co., the Bank of the U. S., etc., this merely confirmed the rule. The profits and dividends of the big corporations have hardly been affected, but by means of the crushing out of the small business concerns, more concentrated power is in the hands of Wall Street. The utility corporations earned \$1,900,000,000 in 1931 despite the crisis.

From the report of the National Association of Cost Accountants, which made an investigation of wage liquidation since 1929, covering 256 plants, it is shown conclusively that "those companies which reduced wages the most had to lay off the most men, so that instead of wage-cuts stimulating business, the contrary condition seemed to have obtained." The report shows further, "Where wages were cut to 75 per cent or less of 1929 levels, payrolls were only 33.2 per cent."

This whole bunk of Wm. Green and Hoover of reducing wage scales in order to revive industry has found its answer. Cutting wages is merely a plan of the bosses to saddle the workers with the effects of the crisis, while reserving for themselves their high profits.

Proven In Experience

Therefore the plank of the Communist Party against Hoover's wage-cutting policy is proven in experience. Making concessions to the bosses means to accept further starvation and misery. The workers are not ready to accept any further lowering of their conditions, and therefore are called upon by the Communist Party, not only to support the Party in the Election Campaign, but to organize in the shops, in the factories, in the mines, under the leadership of the T. U. U. L. to fight against Hoover's wage-cutting policy.

Worsening Conditions in the Southern Textile Mills

By Labor Research Association.

A SURVEY of 22 cotton textile workers in typical North Carolina plants by representatives of the Labor Research Association shows that conditions are growing continually worse in those mills as in the northern cotton plants. The survey shows the workers are receiving wages far below the amounts required for a "minimum health and decency budget."

Here are some of the facts uncovered in the survey which was made last fall and covered workers such as weavers, loom fixers, card grinders, doffers, speeder tenders, in Marion, Hickory, Valdese, Goldsboro, Durham and Spindale, North Carolina.

Employment and Wages. These workers fortunate enough to have any employment at all are rarely employed full time. They average only four days a week and their work extends over only eight or nine months of the year. Wages for full-time average from \$3 to \$13 a week, or still lower as more recent reports show. The average yearly income for those who had full-time work during the whole year was about \$350. In 1932 even full-time work for those few workers lucky enough to have it will bring much less, due to recent wage

cuts. Practically all of the wages earned must be paid to the company for fuel, rent, food, clothing and, in some cases, even for insurance. Deductions for all of these purposes are made from the pay envelopes, while scrip money is also used in some plants, and finance companies charge an extortionate rate of interest for small loans.

Hours of Work. The 11-hour day is the standard for both day and night workers in these southern mills. Each worker interviewed complained of the long hours and the resulting fatigue. "The hours are so long, I have no time for anything but work and sleep," said one worker.

Although small basins, usually filthy and unsanitary, are available for washing, no hot water is allowed in any of the factories where these workers are employed. Health of Families. Half the workers interviewed reported cases of pellagra, which had attacked themselves, their wives, their children or their mothers. Many workers are ill in bed for almost a month at a stretch. The lack of the bare necessities of life make it impossible to continue working for any length of time without getting sick.
